

NORTHSIDE HOSPITAL CANCER INSTITUTE

2017 Skin Cancer Screenings

Another Community Service Program of Northside Hospital Cancer Institute

The Northside Hospital Cancer Institute invites you and your family to attend one of our many skin cancer screenings offered throughout the year at several convenient locations. Our mission is to detect skin cancer early and raise awareness about melanoma, the deadliest form of skin cancer. Screenings take place in a private setting and consist of a brief skin assessment by a medical professional. Typically, only exposed areas such as your face, arms, hands, neck and feet will be examined.

Screening Date	Time	Location	Registration Opens
Thurs., April 20, 2017	6 - 8 p.m.	NSH-Cherokee <i>Medical Associates of North Georgia</i> 320 Hospital Rd. Canton, GA 30114	March 6, 2017
Thurs., May 18, 2017	6 - 8 p.m.	NSH-Atlanta <i>Cancer Center</i> 1000 Johnson Ferry Rd., NE Atlanta, GA 30342	April 3, 2017
